# Silicone Vapor Shield™

## 400 sq.ft. per roll

- **100% Recycled & 100% Recyclable** USA made paper
- **Meets the NWFA Recommendations**
- **Protects Hardwood Flooring** from moisture
- **Protects the house environment** - Does not release any toxic fumes after installation like asphalt based products
- **Doesn't fall apart** and become dust after installation like red rosin and wax papers
- **Planks slide easily** for continuous moisture protection
- **Only underlayment paper that can be used over Radiant Heat**

**This 100% Green product is to be used in place of:**

- Felt Paper
- Red Rosin Paper
- Other wood floor underlayments

Can be used under any solid or engineered wood floor.

### SKU # ALG400SVS Silicone Vapor Shield wood underlayment

➔ Cost per 400 s/f roll: **\$15.99 (3.9¢ per square foot)**

➔ Special Pallet Price\*: **\$13.99 per roll (3.5¢ per square foot)**

*\*120 rolls per pallet Approximate width of the rolls is 34"*

#### INSTALLATION:

- For best results we recommend that the SVS Vapor shield be laid with the silicone facing up (silicone side will appear shiny and smooth)
- The joints of the paper do not need to be taped
- This is the only wood underlayment paper that is suitable to use over radiant floor heated systems
