

Electronic Email Customer Price List Options

NOTE: You will need a login and password to our online ordering site (Decor24) in order to utilize these options. If you need one, please go to our web site at www.jaeckledistributors.com and fill out our online form to request yours.

Email PDF or Excel Price List

Log into our Decor24 Online Ordering site (<http://as400.jaecklewholesale.com/netdata/d24.mbr/login>)

Click on "Email PDF or Excel Price List"

Check the "XLS" or "PDF" box, depending on what format you want your price list in

Select the Manufacturers you desire pricing for

Make sure your email address is entered in the "Email Address" box

Decide whether you want a "Summary" or a "Detail Item#" price list, and check the appropriate box (see note below)

Click the "Submit" button.

NOTE: "Summary" price lists will list one line for each product. "Detail Item#" price lists will list every item# in each price group. Example: We have a ceramic tile product NORMANDY 12X12. There are four colors in the line, all priced the same. Do you want to see one line on your price list that simply says "Normandy 12x12" and lists the price, or do you want to see a separate line for all four items within the line? That is how you can decide between the "Summary" or "Detail" versions.

Email Flooring B2B Compliant CSV (Excel) Price Catalog

NOTE: This option only works w/ our Flooring product lines. See note at end to learn how this option differs from the Excel option offered above.

Log into our Decor24 Online Ordering site (<http://as400.jaecklewholesale.com/netdata/d24.mbr/login>)

Click on "Flooring B2B Excel Price Catalog"

Click the "Manufacturer" button at the top. Select the Manufacturers you desire pricing for

Make sure your email address is entered in the "Email Address" box

Click the "Submit" button.

NOTE: The resulting output will be detailed by item#, and will also include packaging information. The addition of packaging information, and the inability to choose between a "Summary" or a "Detail" version is the main thing that differentiates this B2B Catalog from the regular Excel price list in the first option listed on this page.
