## Terms and conditions

All natural stone can have high shade variations. Also, variations in the natural color will occur randomly.

Always inspect natural stone shading before installing. No claims will be accepted for color variation after installation.

All stone must be sealed. We recommend Gundlach stone enhancers and sealers.

When installing all stone work from several cartons to assure a good shade mix.

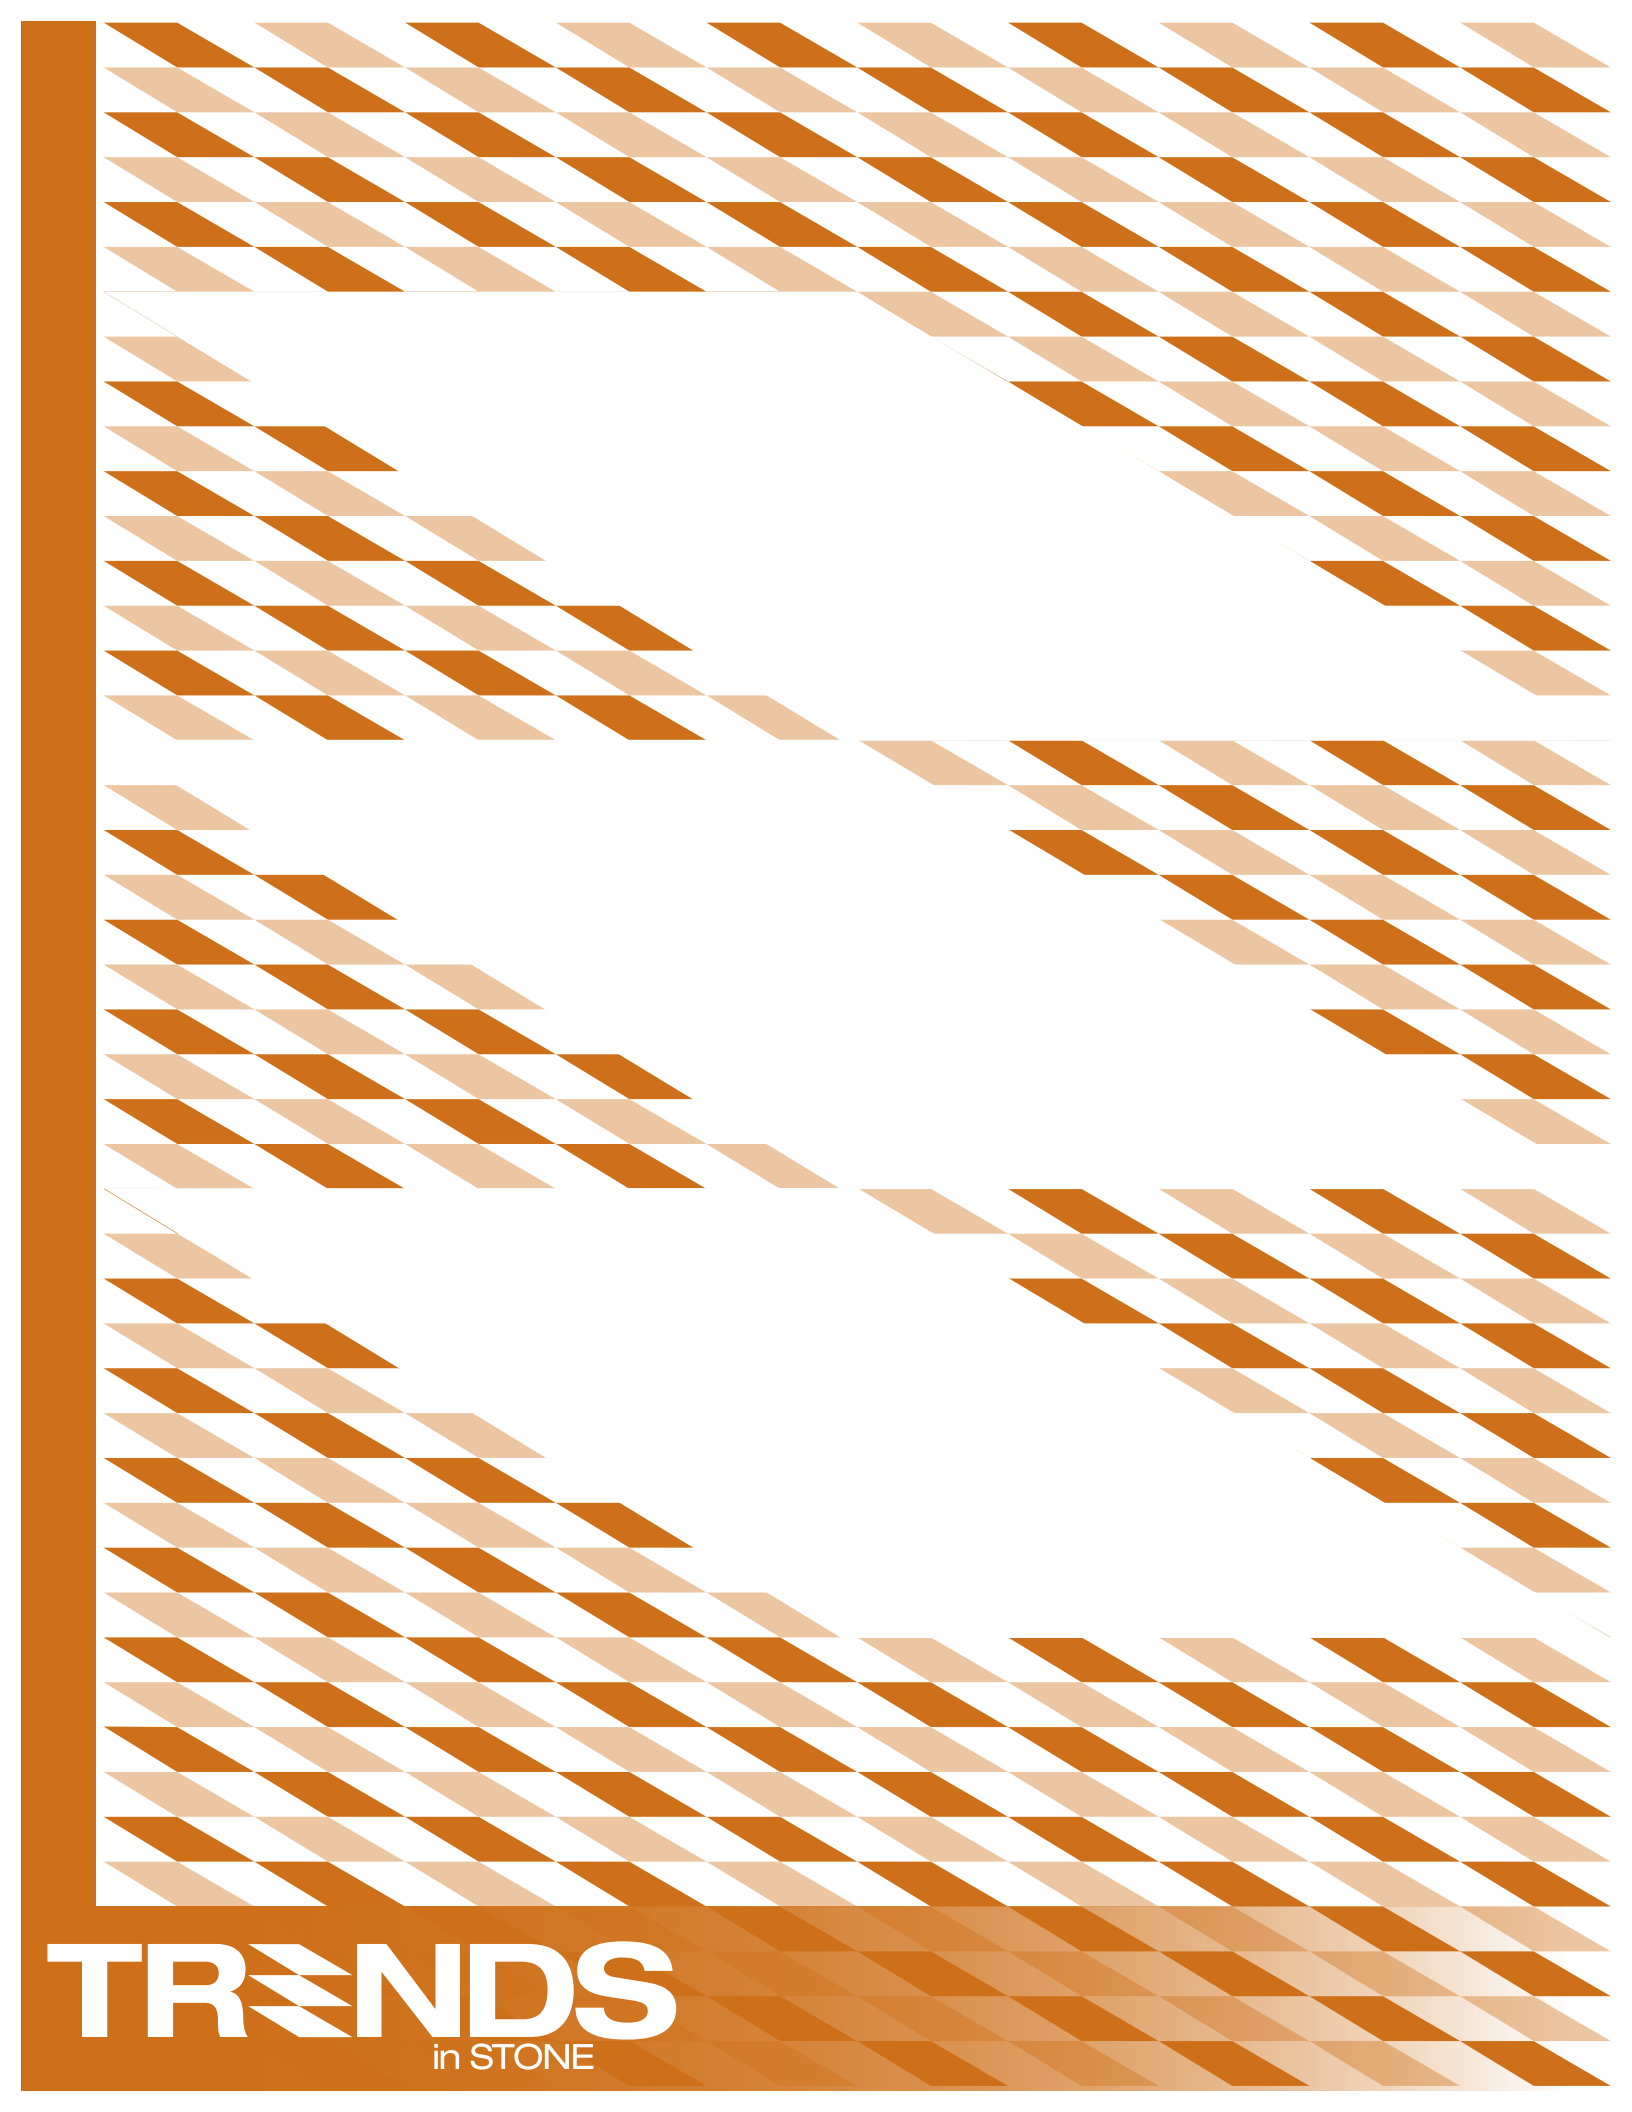

Over time, all filled travertine may have some holes open up. These holes can be filled with grout, stone filler, or sanded caulk.

In the event a customer refuses an order for color or shade variation Jaeckle Distributors will accept the return of the FULL ORDER with no restock charge. The product must be in the same condition

it was delivered. The order must be scheduled for return within 10 business days. Anything less than the FULL ORDER will receive the normal 25% restocking charges. Product that is sorted, cut ,or installed is not returnable. All returns must be preapproved and have an authorization number. The credit is subject to inspection and count when received in our warehouse.

Return policy and prices are subject to change without notice.

Claims for damage or shortage must be made at the time of delivery in writing.
